## Premium Exhaust System

*The new titanium exhaust made a debut!!*

Made tougher, it boasts a gorgeous appearance and guarantees a longer product life.

The new exhaust keeps the concept of the previous version - the minimum back pressure with the straight structure, and it utilizes a larger and more high quality silencer.

\* The 1mm thickness titanium promises absolute lightness, shaving more than 50 % of the weight from the stock.

\* The shape of the main pipe, created by using the 3 dimensional bender, provides the ultra smooth airflow without any drag.

\* Furthermore, the tail made of "cutting method" by welding several round rings presents a stunning look.

A Straight Type tip is available as an option.

The exhaust promises a through enjoyment from the sensual sound & extreme driving pleasure.
